With *Profit from the Pros* and Zacks Rank You'll Work Smarter Not Harder

The timely and useful information doesn't stop with those 7 stocks, though. *Profit from the Pros* is packed with more information -- 12 times more -- than a monthly newsletter. And it's delivered by email so there's no time lag.

Here's the secret weapon behind the success of *Profit from the Pros*: **Zacks Rank** -- a list of the best of the best buys (rated #1) and the strongest sells (rated #5).

How reliable is Zacks Rank? Judge for yourself:

- ✓ An average annual return of +33.1% since 1988
- ✓ An impressive +43.8 total return from 2000-2002
- ✓ A whopping +74.7% gain in 2003 alone

The heart of Zacks Rank is a proprietary analysis system that sifts through all the stocks. The number one ranked strong buys comprise the top 5% of every stock analyzed. The #5 ranked strong sells are the bottom 5%. And we won't give you just the buy recommendations -- every issue of *Profit from the Pros* has just as many sell alerts as we do buy suggestions.

Good timing isn't measured in merely what to buy and what to sell. It's also found in the length of time you hang on to a stock. Zacks Rank has a track record of finding the right stocks that are poised for these timely returns.
